MEPR 10+

ID & Document Reader

The MEPR10+ is a compact, high-performance **half page** reader built for easy integration into kiosks, eGates, and terminals. Designed for passports, ID-1 documents, driving licence and visas, it brings **document, contact, contactless (NFC)** and **QR** reader together.

The MEPR10+ accelerates ID checks and delivers consistently accurate results, even in high-traffic environments. Supported by a complete, SDK, it integrates smoothly into new or existing systems and enables secure, trusted identity verification across industries from aviation and border control to hospitality, banking, and public services.

MEPR10+ Document Reader

Aviation

Enables fast and secure passenger document verification at check-in and boarding gates using OCR, MRZ, and NFC reading.

Border Management

Supports high-security identity checks by reading travel documents and biometric data for automated and manual border control processes.

Kiosks

Powers self-service kiosks by automatically scanning passports, IDs, and barcodes for user onboarding and authentication.

Hospitality

Streamlines guest check-in by instantly capturing and verifying ID documents and passport information at hotel reception systems.

FEATURES

Connection Types

 USB 2.0

Technology

-  NFC / RFID
-  QR/Barcode
-  OCR
